I lead by building, using prototypes to give the team something concrete to decide on. Currently shaping AI-generated content and AI interactions at Miro.

Experience

Miro, Staff Product Designer — Feb 2026 – Present
Design AI interactions on the canvas and lead design for AI-generated content. Board generation and Widget creator shipped in Miro's Intelligent Canvas.

Light, Staff Product Designer — Jun 2024 – Feb 2026
Second designer at the company. Led design of Light's AI surfaces, including the Command Interface, a natural-language way to get work done by typing instead of menus and forms.

Butter, Product Design Lead — Sep 2021 – Jun 2024
Led all product design and a team of three designers, working directly with the founders. Covered the core product and built the marketing website in Webflow.

Work & Co, Design Lead — Feb 2020 – Sep 2021
Designed and prototyped client experiences, including work with IKEA and Vistaprint.

Trouble, Designer — Nov 2018 – Feb 2020
Designed digital products for clients including Ørsted and Børsen.

In2media/Charlie Tango, Lead Designer — Oct 2015 – Oct 2018
Designed and prototyped web and mobile solutions for clients including Danske Bank and Dankort.

Podio/Citrix, UI Designer — Feb 2014 – Oct 2015

Det Nye Sort, Jr. Designer — Jan 2013 – Jan 2014

Education

BA, Graphic Design and Advertising, The School of Visual Communication — 2009 – 2012

Honors & awards

Creative Circle — 2022
Ørsted App, Gold; Injurymap App, Silver; MAYDAY, Silver.
